Projects/Internships

SEPT'22 - PRESENT **Technology Analyst**

Deloitte USI

Underwent three months of Salesforce training and learned about
Salesforce Configuration, Customization and Lightning concepts

Completed Salesforce Platform Developer I Certification and got
staffed to a US Based Insurance firm as a Salesforce Developer

MAY - JULY 2022 **Technology Analyst Intern**

Morgan Stanley

Worked on a component library hosting platform named
'Component Explorer' using backend technologies like NodeJS,
NextJS, ExpressJS, ReactJS, Webpack and multiple internal tools

My work revolved around developing a CLI application using NodeJS,
Yargs and Express, developing rest apis, endpoints for users to inter-
act with the database, worked on CI jobs, bundling of packages using
webpack,etc

JAN 2021 **Food Ordering Website (Link)**

College Project

Developed the Frontend and Backend of the website named
'FoodMania' through which users can order food in real time

Worked on developing the Login, Signup functionalities, menu page,
added JQuery animations to make the webpages interactive, worked
on the backend and database and performed CRUD operations using
PHP, MySQL and used tools and technologies like HTML, CSS,
Javascript, Bootstrap, JQuery and Ajax

AUG - SEPT 2020 **Web Developer**

The Indie Corp

In this internship, I worked on the Admin Panel of a project using fron-
tend web technologies like HTML, CSS, Bootstrap and JavaScript and
Firebase as database

I was awarded as the Star Performer for this internship and got Letter
of Recommendation for the work done
